1. About Us

Armstrong's Driver Education Pty Ltd (ADE) has developed and delivered training and assessment for the Transport and Logistics industry for over 50 years. ADE is a Registered Training Organisation (RTO) and a VicRoads accredited heavy vehicle and motorcycle training and assessment centre working under the Australian Quality Training Framework (AQTF).

2. What makes us different

ADE believes that its students should have access to a training environment and facilities that promote and support their training experience. ADE training services are conducted at our purpose-built training facilities in Thomastown, Victoria and Truganina, Victoria.

The Thomastown facility is situated on 8,000 square meters while the Truganina facility is situated on 10,000 square meters. Both our facilities include:

- purpose-built heavy vehicle reversing areas catering for all classes of heavy vehicles
- an in-situ designated heavy vehicle solely for the purposes of conducting off-road skills (such as cabin drill) and
- purpose-built triple motorcycle ranges (ADE is the only facility with these in Victoria)

ADE licensing courses are designed to provide students with skills and knowledge that exceed the minimum standards required to obtain a heavy vehicle licence. In addition, ADE licensing courses are designed to provide the student with as much practical experience as possible in order to further develop and consolidate their skills.

More than a licence – an education. There's a great deal more to operating heavy vehicles and motorcycles than simply sitting behind the controls. At ADE our proven philosophy is to provide more than learning enough to obtain a licence. Instead, you receive an education – an education that ensures you're able to operate effectively within the transport and logistics industry, or to ride safely on our roads. Likewise, our corporate clients can be assured that our training and assessment standards meet industry requirements and expectations.

Eco Friendly Vehicles. At ADE we have several eco-friendly vehicles in our extensive fleet. Our commitment to keeping pace with industry requirements extends to more than just effective training. We're conscious of the impact vehicles have on our environment and we aim to reduce our carbon footprint.

Finding employment. It's not uncommon for many of our students to find employment, due mainly to our solid 50-year reputation in the heavy vehicle training industry. Our strongest asset is our reputation – as a result, our students benefit from our reputation and employers value it.

3. Registered Training Organisation

ADE is a registered training organisation operating within Victoria and regulated by the Victorian Registration and Qualification Authority (VRQA). The VRQA is the statutory authority responsible for ensuring that employers of apprentices and trainees and providers of education and training (including course and qualification owners) meet quality standards, and that information is readily available to support informed choice in education and training.

4. Access and Equity

ADE Management and staff provide assistance to all clients to identify and achieve their desired outcomes. ADE is committed to providing training and assessment services to all clients regardless

of race, religion, sex, socio-economic status, disability, language, literacy or numeracy and upholds the principles of equal opportunity. ADE is committed to complying with all applicable laws and regulations.

Stakeholders include students, businesses, Regulators, Industry Skills Councils, Trainer networks and Government Departments.

10. Complaints and Appeals

17. USI

As of January 2015, all students undertaking a nationally recognised course will need to have a Unique Student Identifier (USI). The Unique Student Identifier or USI is a reference number made up of 10 numbers and letters that:

- creates a secure online record of your recognised training and qualifications gained in Australia, even from different training organisations
- will give you access to your training records and transcripts (available from mid 2016)
- can be accessed online, anytime and anywhere
- is free and easy to create and
- stays with you for life

You can apply for your USI at <https://www.usi.gov.au/students>. Alternatively, ADE can do this for you. All you need to do is complete a form to give ADE permission to create the USI on your behalf.

These requirements are set by VicRoads and/or other Regulatory bodies. It is your responsibility to ensure that you meet the requirements for the course in which you are enrolled. 23. Flexible Learning and Assessment Procedures

ADE courses follow traditional face-to-face delivery methods due to the practical components required. Flexible learning methods such as distance education and self-paced learning are therefore not supportable.

Learner Support Policy

ADE Management and staff are committed to providing enrolling and enrolled students with Language Literacy and Numeracy (LL&N) needs and/or learning difficulties, with advice and support options to assist with the student's ongoing learning and progress through ADE's courses.

Learner Support Procedures

Pre-Enrolment

- Students are asked a series of pre-training review questions at the booking stage to ensure individual students are suitable to enrol into the training program. Questions are tailored according to the training program and are used to determine any support that may be required for each student through the course.

At enrolment

- ADE staff will request that all students undertake an LL&N assessment. Results from the assessment will be used to review the appropriateness of the course enrolled in.
- ADE trainer/assessor staff must be advised of all LL&N assessment results that identify significant learner support needs of enrolling students.

Pre-assessment

- Reasonable adjustment applied to any assessment must be recorded, signed by the student and the trainer and maintained on the student's enrolment records.

Learner Support Review

Where student support needs are identified as part of the pre-training review and/or LLN assessment, ADE may decide to make "reasonable adjustment" concerning the assessment process for individual students.

The level of support to be provided to individual students and/or any reasonable adjustment to be made to the assessment will be documented and information passed on to the individual student's trainer assessor to ensure that appropriate support is provided throughout the delivery and assessment period.

ADE management will monitor its ongoing learner support measures within its continuous improvement systems and within the internal audit process.
